

# General Overview of the Sectors

The activities of CDR cover various economic sectors. However, the extent of these activities varies from sector to sector in accordance with the Government's directives and Lebanon's free enterprise economic system. The role of the State is limited to the support and promotion of the private sector. CDR works in conjunction with the various ministries concerned by implementing investment projects and providing them with technical assistance.

Operation and maintenance of completed infrastructure projects remains the responsibility of the relevant ministries. However, CDR manages and implements operation and maintenance services that may be requested by the Government.

CDR is active in the following four main sector groups:

- 1 - Physical infrastructure: Electricity, telecommunications and transportation;

- 2 - Social infrastructure: Education, public health, social and economical development, land use and environment;

- 3 - Basic services: Water supply, wastewater, solid waste management;

- 4 - Productive and other sectors: Agriculture, irrigation, sovereignty services, tourism and others;

The total value of contracts signed by CDR between 1992 and the end of 2013 was about US \$ 12,059 million. About US \$ 7,886 million of the projects were completed, while works valued at about US \$ 4,173 million is underway. These contracts are distributed among sectors according to the following ratios:

The charts that follow provide an overview of the distribution of contracts over the main sectoral groups, as well as the distribution of contracts over the specific sectors that make up these sectoral groups.
